

# Model 500 Tower Nitrogen Inflation System

Watch the video with your SmartPhone!

## Ideal for high volume car and light truck shops!

The Model 500 is the backbone of the Branick line of nitrogen generators. With the capacity to handle high volume passenger and light truck facilities, as well as light volume commercial truck applications, it's a real work-horse. When you mean business, our nitrogen tower generators can tackle any task and offer the most bang for your buck. Because of the PRISM Membrane, our systems also act as an air dryer, which means our systems produce a more consistent purity over the lifespan of the machine.

Proudly Made in the U.S.A.

**5**  
Year  
Limited  
Warranty

**AND 5  
Years of  
FREE  
filters!**

### FEATURES

Inlet and outlet pressure gauge.....	Measures inlet and outlet pressure
Purity adjustment.....	Allows for service on a variety of applications
Auto shut-off.....	Less wear on your compressor
PRISM Membrane.....	Produces a more consistent purity over lifespan of system
Air to nitrogen ratio 1.9:1.....	Less wear on your compressor; most efficient in marketplace

### BENEFITS

### SPECIFICATIONS

Operation Temp .....	40° to 150°F
Inlet Port .....	3/8 NPT
Outlet Port .....	3/8 NPT
N2 Purity Port .....	Yes

Auto Shut-Off .....	Yes
Pre-Filters.....	2
N2 Outlet Press. Gauge..	Yes
Dimensions .....	19" x 19" x 72"
Weight .....	185 Lbs
