

TWO POST DP10

LIGHT DUTY TWO POST LIFT

Designed to raise most passenger cars, trucks and vans.

**10,000
POUNDS
CAPACITY**

**Two-Post
DP10AN200
is Gold
Certified**

Shown:
Model DP10AN200
10,000 lbs. capacity

Padded shut-off bar - prevents damage caused by lifting a vehicle too high

Reliable, self-setting locking system with easy to reach lock latch handle

Two heavy-duty Direct-Pull™ hydraulic cylinders designed to minimize down-time by requiring little maintenance

Redesigned carriage - robust construction reformed for easier installation and routine maintenance

Adapter bracket included

Durable powder coat finish

Closed loop hydraulic system prevents hydraulic contamination

Baseplate design compliant with International Building Code

Spot-Rite™ 3-Stage Front Arms

Allows the DP10 to accommodate vehicles both asymmetrically and symmetrically.

Engineering Excellence

Forward's U.S. engineers have decades of combined experience designing automotive lifts for service and repair shops. Forward's philosophy is to own our designs rather than use someone else's off the shelf product.

Product Integrity

21st century design tools allow us to create, control and validate our designs to ensure maximum performance. Forward lifts are rigorously tested to meet quality and durability standards. All product families are proof load tested to 1½ times rated capacity and rigorously cycle tested.

Engineered to perform... Built to last!

**FORWARD
LIFT**

DP10 / 10,000 lbs. capacity two-post lifts

Designed to raise most passenger cars, trucks and vans.

Features:

- Direct-Pull Lifting – efficient, low maintenance technology
- Closed loop hydraulic system prevents oil contamination
- Padded overhead shut-off bar
- Spring operated arm restraints, disengage at floor level
- Single point lock release
- Rubber door bumper guard on carriage
- Durable powder coat finish
- ALI/ETL third party tested & approved
- Optional high rise and extended height available
- Optional screw-up truck adapters (1.25" / 32mm) available

Shown: Model DP10AN222
10,000 lbs. capacity extended height model
with 3-stage front arms and frame engaging
adapter accessories

Low-Profile Arm and Pad Design:

The DP10 features low-profile, oversized pads with multiple extensions to raise most vehicles on the road today.

Optional screw-up
truck adapters available.
Shown with 5" adapter

Spot-Rite™ 3-Stage Front Arm Design

The DP10 features offset arms to accommodate vehicles both symmetrically and asymmetrically. This feature allows the technician to position the vehicle doors in front of or behind the column to prevent door damage.

Includes rubber
door bumper guard

10,000 lbs. capacity

Specifications	DP10A DP10A2HR
Capacity*	10,000 lbs. (4536kg)
Overall Height	143-3/8" (3642mm) 166-3/8" (4226mm)
Height to Shut-Off	137-3/4" (3499mm) 160-3/4" (4083mm)
Minimum Ceiling Height	144" (3658mm) 167" (4242mm)
Minimum Adapter Height (standard adapters)	3-5/8" (93mm)
Maximum Lifting Height	76" (1930mm)
High Rise (HR) Model Only	79-1/2" (2019mm)
Adapter Extension Heights (stack type)	1-3/4" (45mm), 3-1/2" (90mm), 5" (130mm)
Front Arm Reach	23"- 44-1/2" (584mm - 1130mm)
Rear Arm Reach	38-1/2"- 58" (978mm - 1473mm)
Overall Floor Width	136.5" (3467mm) or optional 131.5" (3340mm)
Inside Column Width	114-1/2" (2908mm) or optional 108-1/2" (2756mm)
Drive Through	104-1/2" (2654mm) or optional 98-1/2" (2502mm)
Voltage†	208/230v
Amps	20
Motor	2 HP

Specifications subject to change without notice or liability.
Standard lift colors include blue and red.

* Capacity 2500 lbs. per arm

† single phase standard; 3-phase available at additional cost
