PICK-UP TRUCK TIRE CAGE

DESCRIPTION

The pick-up truck tire cages (MPUTC & MSPUTC) were designed, tested and manufactured to transport tires of all sizes. With the MPUTC and the MSPUTC you will transport your tires safely and on all types of pick-up that have an 8' box. (Ford, GMC, Chevy and Dodge). The pick-up truck tire cage is hot dip galvanized (inside and outside of the tubes) to prevent rust. The MPUTC will carry about 100 tires of 17" diameter. It is equipped with a safety net for the top of the cage, a locking system and stainless steel hardware to prevent rust. As for the MSPUTC, it can carry about 50 tires of 17" and it is equipped with a heavy-duty spring latch system.

PICK-UP TRUCK TIRE CAGE
