

# The Future of Tire and Alignment Diagnostics

From the industry leader in tire and alignment measurement and diagnostic systems and instruments

## Laser-Powered Tire Tread Depth and Alignment Measurement Instrument

Lightweight, handheld, and wireless. It's one of a kind! There's nothing else like it on the market. Its touch-screen display and integrated on-board camera make it easy to use and ensure accurate readings. Follow this simple 4-step process:

1. Capture vehicle's information by reading the license plate (LPR)
2. Scan all tires
3. Send scan data to printer
4. Review TreadTracker report with customer

- Groove Glove Provides Detailed Tire Tread Depth and Vehicle Alignment Recommendations in the Palm of Your Hand
- 4 Easy Steps Capture Vehicle Data and Provide an Easy-to-Understand Report
- Quickly Completes a Vehicle Scan Anywhere in the Service Facility, All You Need is a Wireless Signal
- Durable, Lightweight, Handheld and Wireless Communication
- Increase Tire Sales and Other Tire Related Services, Including Alignments and Tire Rotation
