NISSAN/Altima/15-33-46	10/29/2015	OK

FEATURES AND FUNCTIONS

- Select make, model, year via VIN scan
- Comprehensive make, model, year specific relearn procedures
- Programs all leading aftermarket programmable sensors
- Display OBDII location on tool screen
- TPMS reset via OBDII on applicable vehicles
- Retrieve TPMS DTC codes on applicable vehicles
- RKE testing function
- ECU unlocking for Toyota family of vehicles
- TPMS sensor part number look-up (OE and aftermarket)
- Saves TPMS service history on-board and PC
- Built-in TPMS service help and training
- Multi-lingual, 18+ languages
- Worldwide TPMS technical support

IN THE BOX

- VT56 tool
- TPMS relearn magnet
- OBDII module with cable
- 24 V wall charger
- Quick start guide
- CD (with user manual and software/WebVT)
- Docking station (optional)
- IR thermal printer (optional)

KIT OPTIONS

- TS56-1000 - VT56 Kit with printer and docking station
- TS56-1001 - VT56 Kit with docking station
- TS56-1002 - VT56 Kit

OPTIONAL ACCESSORIES

- Tire tread depth gauge
- IR thermal printer
- Software updates
- Mitsureset
- TPMS sensor check box

All VT56 TPMS Diagnostic Tool kits include a one year warranty and one year software subscription from the date of purchase.

ATEQ

TTD

PROFESSIONAL TIRE TREAD DEPTH GAUGE VT56 ACCESSORY

With the TTD accessory connected to the VT56, technicians can now provide a complete tire and TPMS sensor check during routine maintenance. In one simple gesture, the TTD checks worn tires, tire damage and even indicate poor alignment.

NO NEED TO
REPLACE
6/32" or more

CONSIDER
REPLACEMENT
5/32" - 4/32"

REPLACE
3/32" or less
2/32" is illegal
in most states

FEATURES AND FUNCTIONS

- Easy grip wand with protective rubber jacket
- Tread depth trigger activation button
- Built-in gauge pin storage compartment with quick release button
- Power LED indicator
- RJ45 connector cable, no Bluetooth pairing is required
- Print results to show customer via VT56 optional thermal printer
- Quickly captures 3 tire measurements (inner, center, outer)
- Measures with an accuracy of $\pm 1\% + 0.0012$ inches (0.03 mm)
- Vibrate and sound alerts indicate successful measurement
- Green, yellow and red color codes on VT56 tool screen indicate wear against the threshold
- Measures 4 to 7 wheels per vehicle
- No battery needed, connects to the VT56 via RJ pin connector
- Automatic calibration check before every use
- ISO calibration certified 9001

Inner tread: 9 32nds

IN THE BOX

Part number: TD01-0000

- Tire tread depth gauge
- Quick start guide

The TTD kit includes a one year warranty.

VT36

UNIVERSAL SENSOR ACTIVATION AND PROGRAMMING TOOL

The ATEQ VT36 offers functionality and flexibility at an affordable price. Designed for tough service station environments, its rugged casing and durable rechargeable battery stands up to routine activities in the service bay. The VT36 can be used in conjunction with a diagnostic scan tool, and turns off the warning light for vehicles with auto relearn or manual relearn mode. Thanks to frequent updates, it includes all new TPMS sensors and vehicles introduced each year.

Programmable sensor menu

Part number look-up

FEATURES AND FUNCTIONS

- Comprehensive make, model, year look-up
- Reads and activates all known TPMS sensors
- Displays TPMS sensor data (ID, tire pressure, tire temperature, battery status, frequency)
- Programs all leading aftermarket programmable sensors
- Make, model, year specific relearn procedures
- TPMS sensor part number look-up (OE and aftermarket)
- Multi-lingual, 15+ languages
- Worldwide TPMS technical support

IN THE BOX

Part number: VT36-0000

- VT36 tool
- USB 2.0 cable
- OBDII module with cable
- Wall charger
- Quick start guide
- CD (with user manual and software/WebVT)

OPTIONAL ACCESSORIES

- TPMS sensor check box
- Software updates

MITSURESET UNIVERSAL TPMS SENSOR DECODER

Enables TPMS relearn mode on most Mitsubishi vehicles via OBDII communication allowing TPMS sensor ID's to be written to the ECU during sensor activation.

FEATURES AND FUNCTIONS

- Enables Mitsubishi Lancer, Outlander, Outlander Sport, RVR and Mirage TPMS learn mode
- Compatible with all TPMS trigger tools capable of triggering Mitsubishi sensors
- Standalone, one touch TPMS relearn module
- Fully updateable via PC

IN THE BOX

Part number: OBD5-M000

- Mitsureset tool
- USB 2.0 cable
- OBDII extension cable
- Quick start guide

The Mitsureset tool kit includes a one year warranty.

TPMS SENSOR CHECK BOX

Pressurizes TPMS sensor during bench testing to simulate in-tire condition before sensor installation. Helps to identify different readings between mechanical tire filling gauge and electrical TPMS sensor reading.

FEATURES AND FUNCTIONS

- Helps identify different readings between mechanical tire fill
- Test the TPMS sensor before working on the customer's vehicle
- Test and validate functionality of old and new sensors
- Perfect solution to test and validate the functionality of the sensor after it has been introduced to fix a flat, slime, beads, etc.
- Worldwide TPMS technical support

IN THE BOX

Part number: VB01-0000

- TPMS sensor check box
- Mounting brackets

The TPMS Sensor Check Box includes a one year warranty.
