

TTD

PROFESSIONAL TIRE TREAD DEPTH GAUGE

VT56 ACCESSORY

With the TTD accessory connected to the VT56, technicians can now provide a complete tire and TPMS sensor check during routine maintenance. In one simple gesture, the TTD permits to detect worn tires, tire damage and even indicate poor alignment.

SIMPLE AND ROBUST

- Robust accessory, with rugged grip handle
- Two buttons for measure and pin release
- No charging necessary
- Easily access tire tread from inside the wheel well

LONGTERM PERFORMANCE

- Extremely precise measurements
- Consistent performance over time: tool is calibrated before each use
- Gauge pin is stored inside the grip handle for protection when not in use

EASY REPORTING

- Display the results on the VT56 screen
- Transfer data to a PC, or to the VT56 SD card
- Store, print and share the report with your customer

➤ A QUICK VEHICLE SAFETY CHECK

➤ AN ADDITIONAL SERVICE AND TIRE SALES OPPORTUNITY

➤ IDEAL FOR TIRE MANAGEMENT: RECORDS TIRE CONDITION BEFORE AND AFTER STORAGE

PRODUCT SPECIFICATIONS

- Quickly captures 3 tire measurements (inner, center, outer)
- Measures with an accuracy of $\pm 1\% + 0,03 \text{ mm}/0.0012 \text{ inches}$
- Vibrate and sound alerts indicate successful measurement
- Green, yellow and red color codes indicate wear against the threshold
- Measures 4 to 7 wheels per vehicle
- No battery needed. Connects to the VT56 via the RJ45 pin connector
- Automatic calibration check before every use
