14,000 lbs. capacity

CR14 Lifts Feature

an improved, advanced hydraulic and mechanical lifting system which is concealed and protected under the runway. This high performance design generates greater durability and a more efficient and dependable lift operation. The CR14 runway lift features an industry-best rise height of 78-3/4" allowing better technician access for under vehicle service.

High Performance Forward Lifts

are rigorously cycle tested at rated load giving you a proven, quality tested lift you can depend on for years of quality service. Forward engineers' gold certified designs meet the highest industry standards for safety and performance. Secure your investment and your bottom line with these versatile and reliable vehicle service lifts.

Forward CR14 drive-on lifts meet the
ANSI/ALI ALCTV 2011 standard, including the required
third-party validation. Your assurance of certification is the gold ALI/ETL
certified label - the highest industry safety and performance standard.

Multi-position lock components in each structural leg allow lift to be level at one of 18 different locking positions

Optional rolling bridge jacks with a capacity of up to 7,000 lbs.

20" adjustable runways service a wide variety of vehicle widths

Shown: CR14X
14,000 lbs. capacity with optional rolling bridge jacks

CR14

GENERAL SERVICE RUNWAY LIFT

14,000 lbs. Capacity

Self-chocking 41" approach ramps engage when lift is raised - protective strips on ramps prevent floor gouging

An optional 2' runway extension is available for longer wheelbases

OPTIONAL ACCESSORIES:

- RRJ70G / 7,000 lbs. capacity rolling bridge jacks
- Drive-through ramps
- 3 - Phase motor
- Internal airline kit
- Bolt-on, full runway alignment kit
- Turning radius gauges
- 2' Extended runway kit
- Power unit cover

7,000 lbs.
Rolling Bridge
Jacks

Turning Radius Gage

SPECIFICATIONS

CR14 / CR14-X with 2'
Extended Runway Kit

CAPACITY	14,000 lbs. (6350kg)
RISE	78-3/4" (2000mm)
MAXIMUM WHEELBASE	182-1/2" (4635mm) / 206-1/2" (5245mm)
OVERALL LENGTH	250" (6350mm) / 274" (6960mm)
OVERALL WIDTH	131-3/4" (3346mm) / 140-1/2" (3569mm)**
WIDTH INSIDE COLUMNS	116-1/4" (2953mm)
LENGTH BETWEEN COLUMNS	195-1/4" (4959mm)
OVERALL HEIGHT	95-1/2" (2426mm)
RUNWAY WIDTH	20" (508mm)
RUNWAY HEIGHT	7" (178mm)
WIDTH BETWEEN RUNWAYS	43" or 46" (1092mm or 1168mm)
RISE TIME	72 seconds
VOLTAGE*	208V/230V
AMPS	17
MOTOR	2HP
MINIMUM BAY SIZE	15' x 25' (4572mm x 7620mm) 15' x 27' (4572mm x 8230mm)

* single phase standard; 3-phase available ** Spec varies with power unit location
Specifications subject to change without notice or liability

Forward Lift, a leading manufacturer of automotive lifting equipment, provides reliable lift systems for independent repair shops, car dealerships, body shops, national accounts, home enthusiasts, hobbyists, and heavy-duty truck facilities. Using 21st century design tools allows us to create, control and validate our designs to ensure maximum performance.

Forward lifts are rigorously cycle tested to exceed durability standards. All Forward products are proof load tested to 1½ times rated capacity! The combination of high quality products and service provides you with the very best value - while not compromising safety, functionality or durability.
